**SPRING
AND FALL
1944**

*Things That Should
Be Planted Early
For Best Results*

**Mastodon
Everbearing
Strawberry**

"MASTODON" EVERBEARING STRAWBERRY PLANTS. Imagine picking these delicious berries Spring, Summer, and Fall right from your own garden. Mastodon is by far the most popular of all Everbearing Strawberries. The fruit is of the most delicious flavor, large and well shaped, and beautifully colored. The plants make vigorous growth and it is generally considered the best berry for all locations. Usually begin bearing a few weeks after planting and continue until frost.

They are one of the easiest things to grow and any ground that will produce a good crop of weeds will produce an abundance of these luscious strawberries. A leadet with planting and cultural directions will be sent with each order. Strawberries are the earliest fruit to bear and high in health-giving vitamins. Why not set out 100 plants and have enough to "put up" and for jellies and jams. Fine strong plants **\$1.75 per dozen; \$12.00 per 100.**

Everything in this catalogue will be shipped by express from my nursery in New Jersey. Be sure to give express address if different from the post office address. We do not make C. O. D. shipments. Money order or check should accompany all orders, the small express charges will be collected by the express company when they deliver the package.

All orders will be filled in the rotation in which they are received. No "RUSH" orders please, as that means shipping ahead of other orders that came in first, which of course is unfair. The solution to this is "ORDER EARLY."

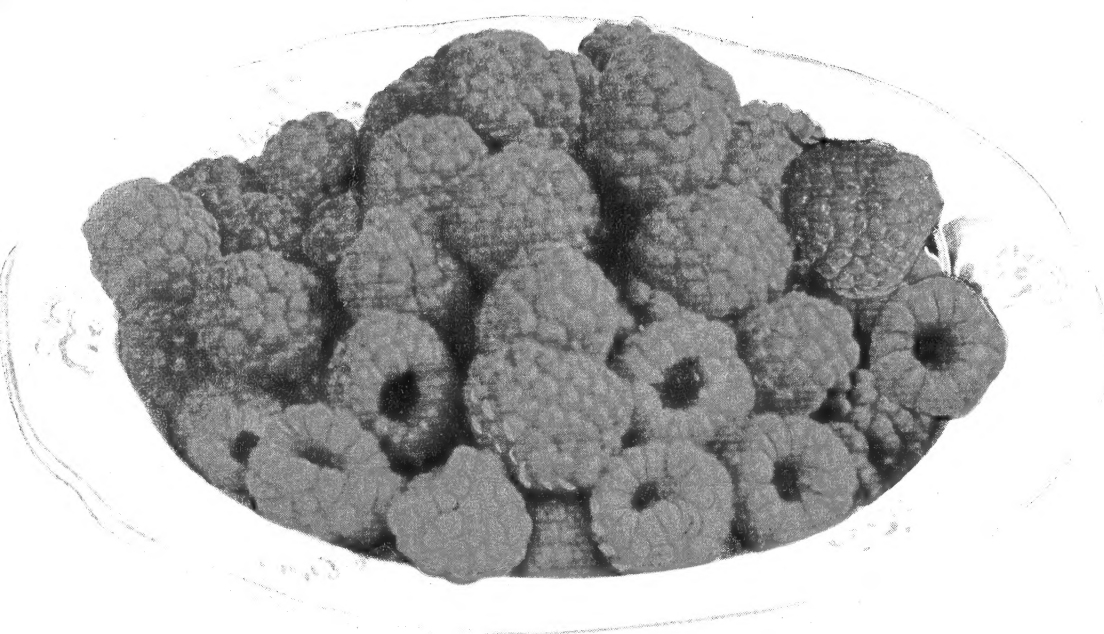

This is our last listing of Roses for the duration. Most items in this catalogue, outside of fruits, berries, and other foodstuffs, will be discontinued after this season, or as soon as present stock is exhausted. Better order NOW, while you can get them. Don't wait until June when Roses are in bloom to order Roses. We will not have them. Success with all spring planting is likely to be largely in proportion to **how early things are planted.** Give yourself all the breaks. ORDER AT ONCE.

POSTMASTER: If addressee has removed and new address is known, notify sender on FORM 3547, postage for which is guaranteed.

ST. REGIS EVERBEARING RASPBERRY. There is nothing more delicious than fresh picked Red Raspberries. Just pour some cream or milk over this dish of luscious berries, sprinkle it with powdered sugar to suit the taste, and you have a delicacy to tempt the palate of the most fastidious. Pick them right out of your own garden in the morning, for breakfast, with the dew sparkling on them, or for luncheon or dinner, or for an evening snack. Any time their wholesale goodness appeals to you, they will be right there at your finger tips. Plant them liberally so that the entire family may enjoy them. Plant them early and have fresh fruit all summer, right up to frost. Cut the grocery bills by planting fruit, providing plenty of healthful invigorating fresh fruit for the entire family.

St. Regis is the best Red Raspberry for the home garden, bearing very large sweet bright red berries of superior quality. The fruit ripens earlier than other raspberries and continues throughout the summer and fall year after year.

The plants are hardy, easy to plant, easy to grow. Just take out a spadeful of earth, put in the root, put back the earth, pack it down by stepping on it, water, and you will soon start picking the fruit.

Fine strong plants, ready to bear. **4 for \$1.00; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.**

MORRISON BLACKCAP RASPBERRY. This is a new Premium Berry and it is by far the largest, finest, most delicious and most attractive BLACK Raspberry created to date. For jams, pies, and preserves there is nothing finer and they are of course also superb for eating fresh as a dessert. Being a new berry of superior quality the supply is very limited. **4 for \$1.00; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.**

"ELDORADO" BLACKBERRY. The most Popular of all Blackberries. The very large berries are of superb quality and produced in large quantities year after year when once they are planted. Excellent flavor, rich aroma, almost coreless, melting, juicy. See illustration below. **4 for \$1.00; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.**

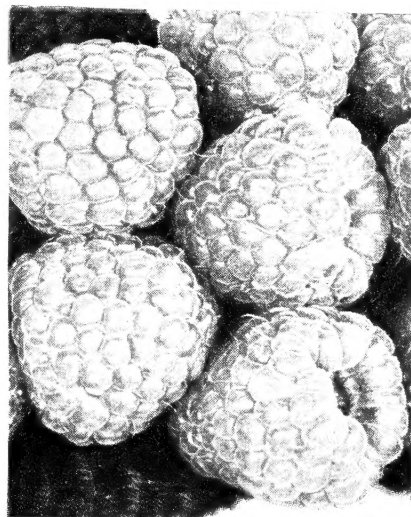

"ICEBERG" WHITE BLACKBERRY. See illustration at right. A great novelty, delicious melting fruit. A true Blackberry—but white. **4 for \$1.00; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.**

"LUCRETIA" DEWBERRY. Bears huge berries, somewhat like blackberries, often 1½ inches long by one inch wide. Ripens early, Sweet, luscious. **4 for \$1.00; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.**

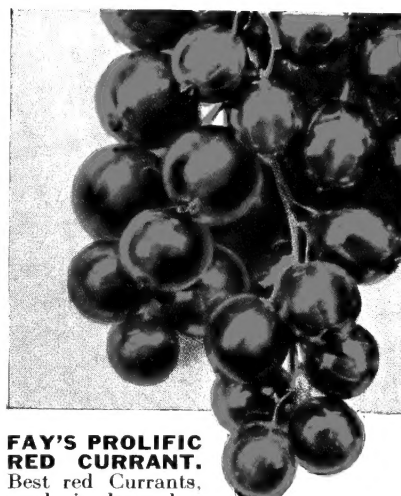

ADAMS IMPROVED ELDERBERRY. A great improvement over the ordinary kind, having huge berries, in large clusters, and bearing unbelievable quantities of fruit. It is nothing unusual for a cluster to contain several thousand berries as large as blueberries. Make delicious pies, jellies, and jams of a most unusual and delightful flavor, also excellent wine. Hardy anywhere, require no care. **\$1.50 each; 3 for \$3.75; 6 for \$7.00; 12 for \$12.00.**

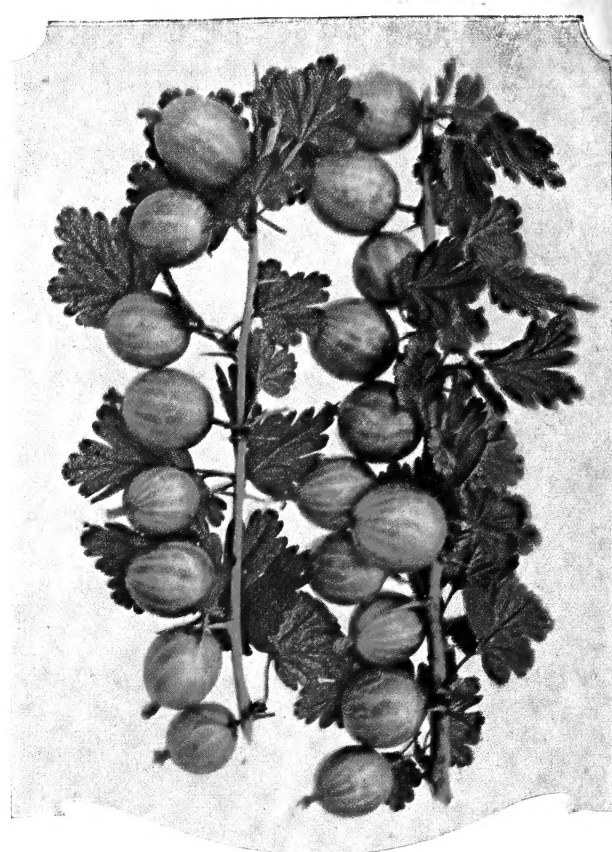

ELDORADO BLACKBERRY

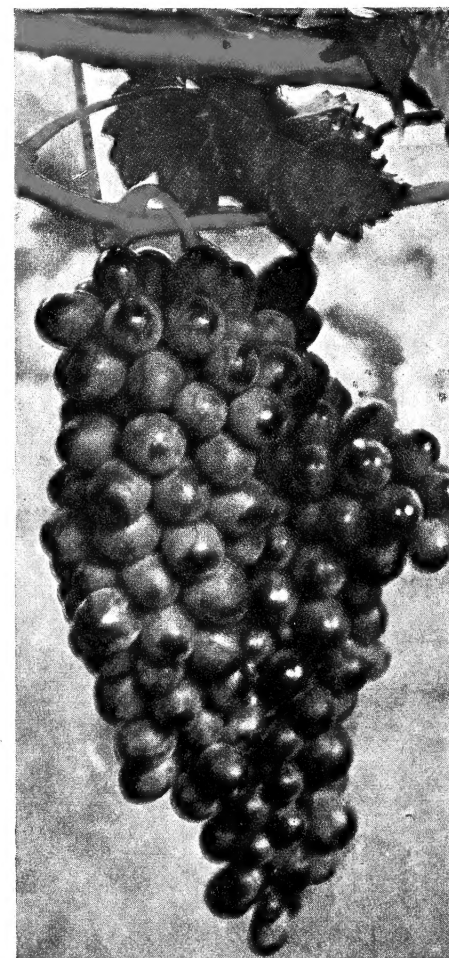

ICEBERG WHITE BLACKBERRY

FAY'S PROLIFIC RED CURRANT. Best red Currants, producing large clusters of the finest fruit. Fine for jellies, jams and for pies. **75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.**

DOWNING GOOSEBERRY. The best of the Gooseberries, and who is there that does not delight in the luscious goodness of a gooseberry pie? Grow your own and pick them fresh from your own garden. Also excellent eaten fresh. "Downing" is a very large berry of the most delicious flavor. **\$1.00 each; 3 for \$2.75; 6 for \$5.00; 12 for \$9.00.**

EXTRA STRONG BEARING AGE GRAPE VINES

3 for \$1.00; 6 for \$1.75; 12 for \$3.00

BRIGHTON. Best Red.

MOORE'S EARLY. Best Blue.

FREDONIA. New Blue.

“MASTERPIECE” Gladiolus Collection

50 for \$2.50; 100 for \$4.50; 200 for \$8.50; 500 for \$20.00

This season I have mixed all my Gladiolus together into one Super De Luxe Mixture and it will be the greatest mixture I have ever offered, in fact I believe the finest collection ever offered by anybody. It is the only collection I will offer this year. Even “Sweet and Lovely” the famous **Fragrant Gladiolus** will be mixed in with all the rest. And the **25 “Worlds Best”** which we have heretofore sold by separate colors, as well as dozens of other new and rare varieties have been put into this mixture. Last year the “Worlds Best” Collection was sold at 25 for \$2.25. Now I offer them all mixed together as above at 50 for \$2.50; 100 for \$4.50; 200 for \$8.50; 500 for \$20.00. Owing to war and labor conditions, I will not be able to sell Gladiolus by separate colors this year.

(Previous years we have made up tens of thousands of separate bags containing from 1 to 25 of a color to a bag, each bag separately labelled. This involved a tremendous amount of labor and the help for doing this is not available now.)

This “Masterpiece” Collection will contain the entire color range, such as the newer lavenders, heliotropes, orchid, blue and purple shades, white, rose, salmon, red, pink, scarlet and cardinal tones, soft and deep yellow and orange, buff, and every color known to Gladiolus, and the **Worlds Best** of each color, a vast array of rainbow colors, all mixed together in a well balanced collection. All will produce huge flowers of unbelievable size and great beauty, many flowers open at once. Every bulb is of flowering size, just the right age to be full of pep and give the finest results. All are healthy, clean, and free from disease.

For Mass planting in the garden, or for cut flowers, there is nothing finer. Due to the fact that the varieties in this collection have varying flowering periods, a 60 day succession of bloom may be expected from one planting. By making two or three plantings, 2 weeks apart, flowers may be had all summer long. **Order as many Collections as you can make room for.** 50 Gladiolus require a space only 2 by 2 feet, and many gardens have room for many such collections.

JUST ONE OF MANY LETTERS RECEIVED LAST YEAR

“I never saw such beautiful Gladiolus. Some grew to a height of 6 feet by actual measurement and had 21 to 23 blossoms on them. My neighbors thought the individual blossoms looked more like orchids than “Glad.” I made a spray for our town’s First WAR Hero and everybody said it was more beautiful than what the florist shops put out. I have had constant blossoms for just about 2 months. I have made some gorgeous bouquets and am certainly thankful that I purchased these bulbs.”

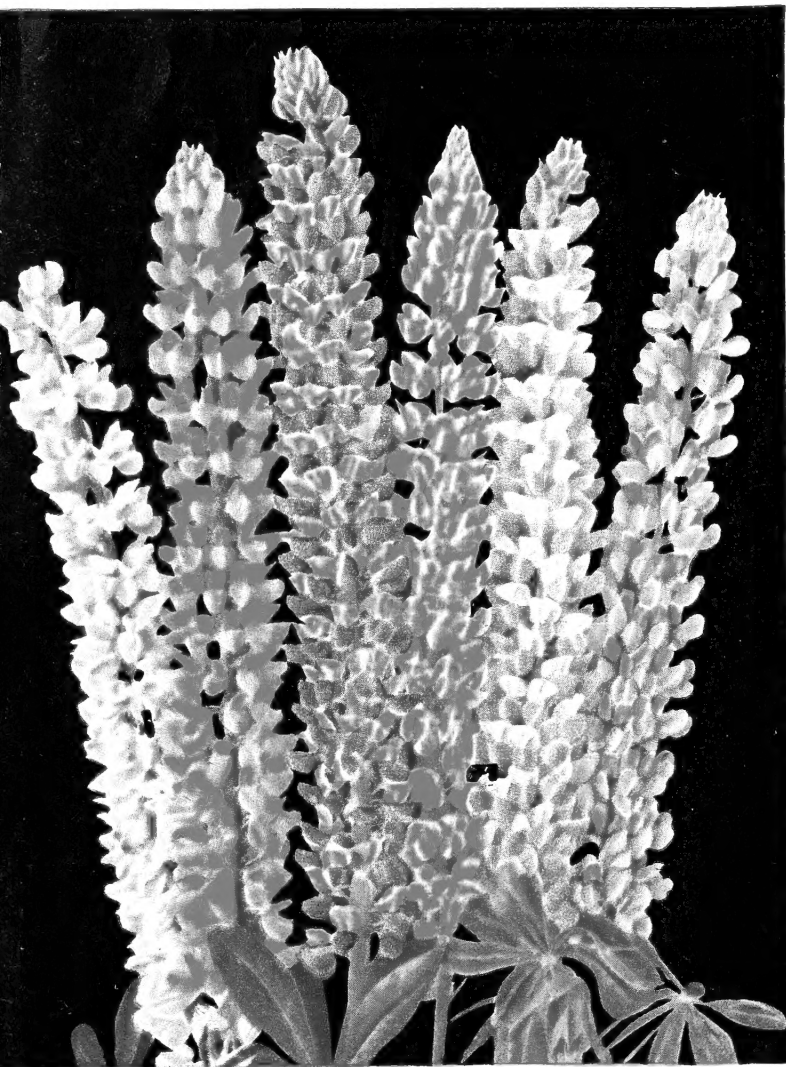

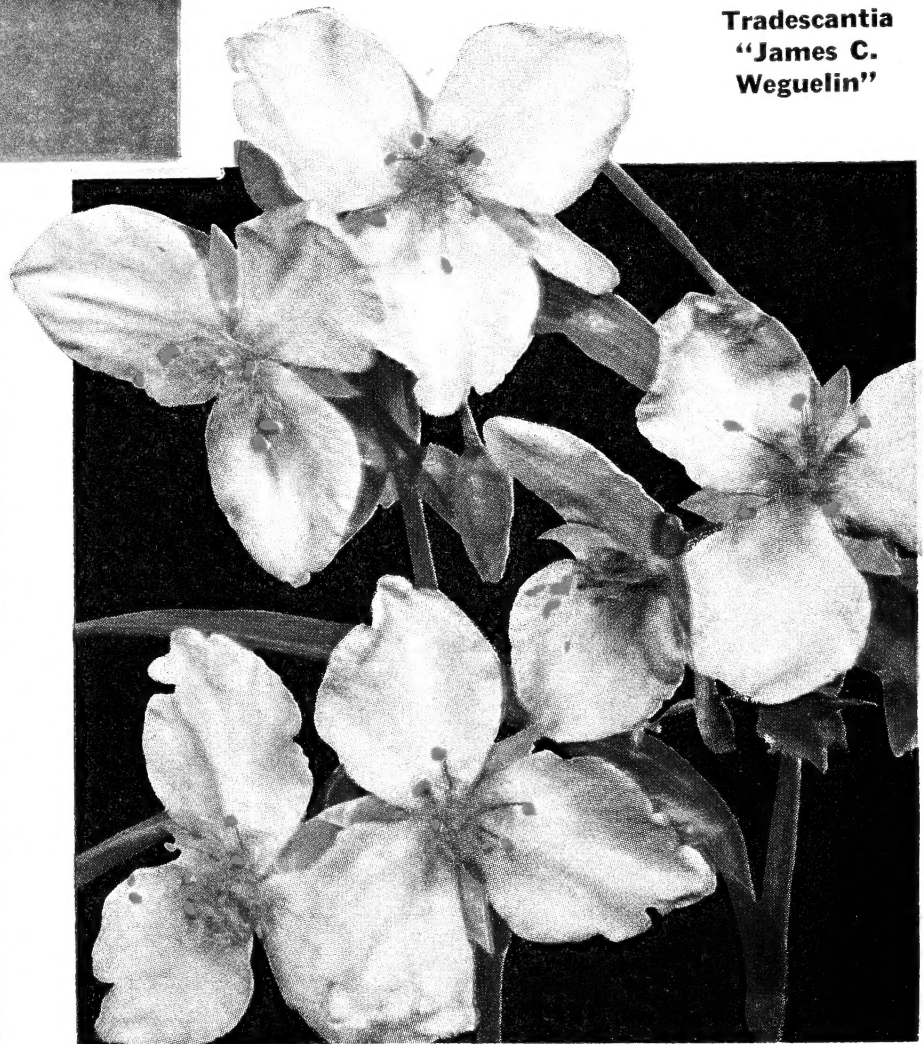

TIGRIDIA *Grandiflora Hybrids*

See Illustration at Left

TIGRIDIA GRANDIFLORA HYBRIDS. Also known as "Shell Flowers" on account of their shell-like substance, and again as "Mexican Tiger Flowers" because of their spotted throats and the fact that the original species was first discovered in Mexico. The blooms, which are 3 to 5 inches in diameter, are sure to be the most showy flowers in your garden, and they are entirely unlike any other flower. The bulbs I am now offering are the finest I have ever been able to offer, both in color-range and size and quality of bulbs. They are simply superb. The colors are rich reds, orange, pinks, yellows, whites, and various blends of these colors. Most of them have the beautifully spotted throat which is one of the features of the flower, in others this spotted throat is absent and the flowers are of uniform color throughout. They are handled much like gladiolus, planting them outdoors as soon as the weather permits in the spring, about 3 inches deep and 4 to 6 inches apart. **8 for \$1.00; 18 for \$2.00; 30 for \$3.00; 100 for \$9.00; 1,000 for \$80.00.**

Tradescantia
"James C. Weguelin"

SENSATIONAL RUSSELL LUPINS. No flower has produced as much of a sensation as these Russell Lupins, which are absolutely new and as far superior to the old style Lupins as modern fashions are superior to those of 50 years ago. The illustration speaks for itself as to beauty and the color range seems to be unlimited, the illustration showing only a few of the remarkable new colors. **75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.50.**

TRADESCANTIA "James C. Weguelin." One of the choicest garden flowers of recent European introduction. A beautiful new free flowering hardy plant with lovely porcelain blue flowers freely produced from June to September. The flowers are about twice as large as the regular Tradescantia. Hardy, requires practically no care. **75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.50.**

TRADESCANTIA "Summer Snow." Pure snow-white. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.75.**

TRADESCANTIA "Western Rose." Lovely bright red. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.75.**

TRADESCANTIA "Virginica." Deep purple. **50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.75.**

All Tradescantias are particularly valuable because they will bloom in shady places.

New Buddleia "FORTUNE"

The Buddleia, also known as the Butterfly Bush, or Summer Flowering Lilac, is one of our most valuable and ornamental shrubs and the new Buddleia "Fortune," illustrated at right, is a distinct improvement over varieties heretofore known. "Fortune" is very close to perfection. The color is clear pure lilac, with a small orange eye in each tiny floret. The flower sprays are fully round, beautifully symmetrical, and the entire spray is in bloom practically from base to tip at the same time. The flowers may be cut with stalks 2 to 3 feet long and last several days when cut. It is magnificent as a cut flower and stunning as a garden specimen. The bush is of neat habit, about four feet high and four feet across. It flowers continually all summer and until stopped by frost. **Strong plants \$1.00 each; 3 for \$2.75; 6 for \$5.00; 12 for \$9.00.**

Buddleia "Fortune"—Plant Patent No. 206

"Charming"

A lovely new color in Buddleias

NEW PINK BUDDLEIA "CHARMING"

This sensational new Buddleia has been AWARDED A SILVER MEDAL by the Pennsylvania Horticultural Society. The lovely pink flowers are borne in long sprays throughout the late summer and autumn. Gorgeous as a shrub in the garden and superb as cut flowers. See illustration. Strong field grown plants. **\$1.00 each; 3 for \$2.75; 6 for \$5.00; 12 for \$9.00.**

Buddleia "DuBonnet." A gorgeous new variety in rich Dubonnet wine color. One of our finest new introductions. **\$1.00 each; 3 for \$2.75; 6 for \$5.00; 12 for \$9.00.**

FORSYTHIA. Harbinger of springtime. The first shrub to blossom. Hardy anywhere. Huge specimen shrubs. **\$1.50 each; 3 for \$3.75; 6 for \$7.00; 12 for \$12.00.**

GIANT MALLOWS

The illustration at the right is very greatly reduced. THE FLOWERS BEING MORE THAN FOUR TIMES THE SIZE OF THE ILLUSTRATION. These new improved Giant Mallows are truly of colossal size, often as large as a dinner plate and as handsome as they are large. They look much like huge hollyhocks, but the flowers are several times as large as a hollyhock and the plants are more bushy. They flower profusely all summer long and require no care, being among the hardiest of all flowering plants. The extra strong roots I will send will flower the first year and grow larger and finer each year. Once planted they flower year after year with no special care. Either in the home garden or in the wild garden their rugged constitution gives assurance that they will take care of themselves. In the entire horticultural field nothing is more showy, or more easy to grow. Red, pink, white, or mixed colors. **50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 100 for \$20.00.**

**Giant
Mallows
(Greatly
Reduced)**

BLEEDINGHEART (*Dicentra Spectabilis*). See illustration at right. This old favorite with graceful racemes of flowers is a great delight in any garden, and will make itself perfectly at home anywhere. When once established it is good for a lifetime with no care and becomes more handsome with each succeeding year. Equally at home in sun or shade. Extra Strong Clumps, 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

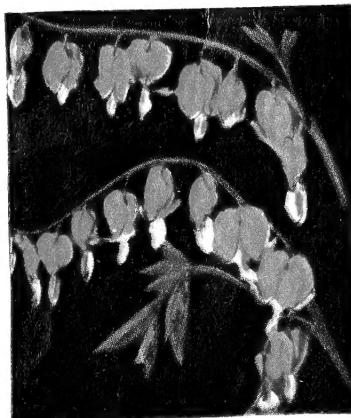

PLUMED BLEEDINGHEART. The plumed foliage of this variety has a beautiful fern-like appearance, more handsome than the finest fern. Blooms all summer and the foliage remains handsome until killed by severe freezing weather. Prefers semi-shade. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

GIANT FLOWERING FOXGLOVES *Grandiflora Hybrids*. Striking garden subjects. Marvelous color range, towers of beauty. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.

TRITOMA "PFIZERI." Also known as The Torch Lily, or Red Hot Poker. Unusual and striking garden or cut flower. Used extensively by Florists to point up a basket of flowers. Should be planted only in the spring. 50c each; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00; 25 for \$7.50; 100 for \$27.50.

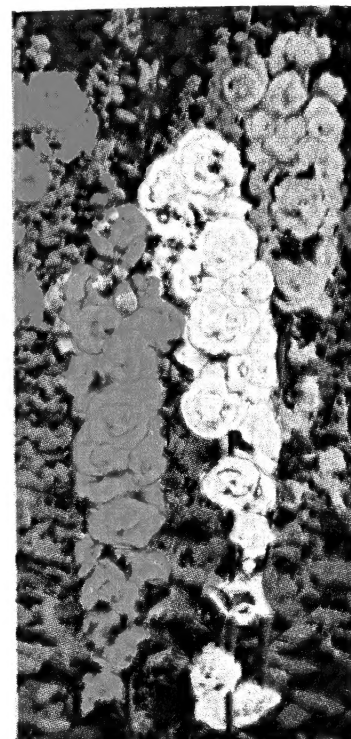

Coreopsis "Mayfield Giant"

See illustration at right. A glorious new giant-flowered coreopsis of perfect form, outstanding true golden yellow color and exquisite fragrance. Nothing is more colorful in the garden. A real acquisition for garden or cut flowers. Blooms all summer. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.75.

VERONICA. Nothing finer for a blue garden than these spires of delightful blue. Strong 2 year old field-grown plants. 3 for \$1.00; 6 for 1.75; 12 for \$3.00; 100 for \$20.00.

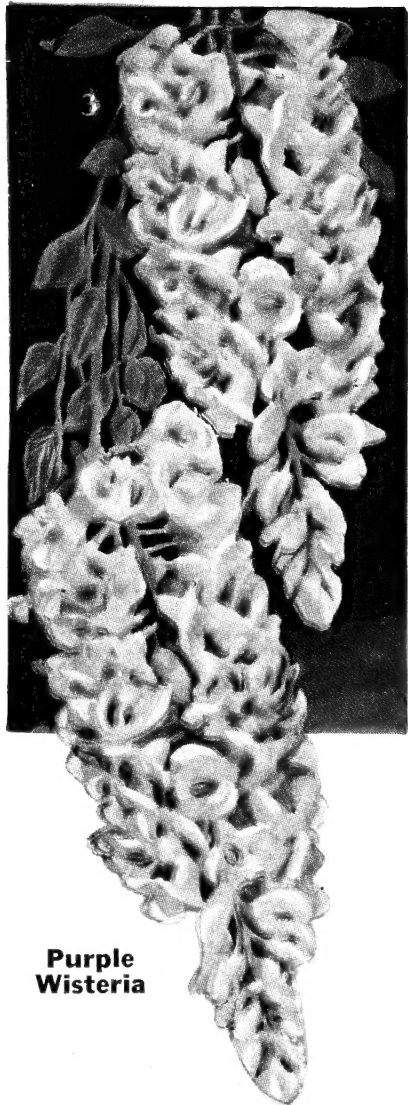

HOLLYHOCKS. A superior strain of new hybrids. Giant flowering. Mixed colors assorted, pink, mauve, maroon, yellow, rose, white, etc., 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.

CHINESE LANTERN. Also known as "Winter Cherry" as the brilliant red balloon-like cover incloses a fruit much like a cherry. They form excellent winter decoration as they dry and retain their color through the winter. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

FINEST NEW EVERBLOOMING HARDY VIOLAS. This race resulted from Violets being crossed with Pansies, giving us the beauty of Pansies with the hardiness of Violets, with flowers in bloom all summer and fall. Plant now for blooms this season. All colors assorted. While they last, 3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.

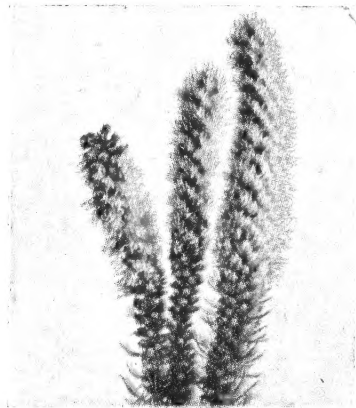

**Purple
Wisteria**

WISTERIAS

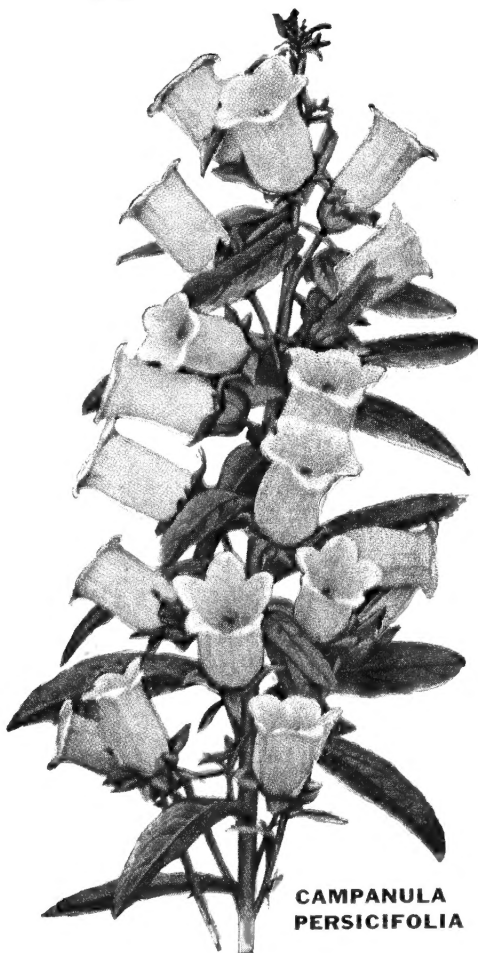

WISTERIAS. Many people have had the great disappointment of buying cheap Wisterias and then having no flowers on them after growing them for years. You will not have this trouble with the plants I am offering, as they are all grafted plants grown from flowering wood of extra fine plants and every plant will furnish a great profusion of bloom. The plants are extra strong robust plants, much finer than anything you would expect to receive. You will be agreeably surprised when you see them, and still more pleased when you see them in bloom. White or Purple—Your choice—\$1.50 each; 3 for \$4.00; 6 for \$7.50.

SPIRAEA "Peach Blossom." A delightful flower 18 inches tall, for pot culture or garden. A great favorite with Florists. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.00.

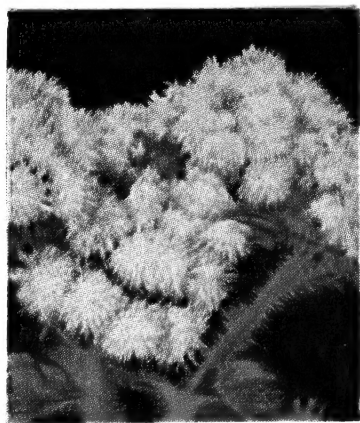

LIATRIS (Blazing Star or Gay-feather). An excellent cut flower or garden subject, the flowers growing all along the stalk like a Delphinium. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.50.

**CAMPANULA
PERSICIFOLIA**

Nothing is more lovely in the garden than these lovely bell-shaped flowers. "Persicifolia" is a delightful new Wedgewood China Blue. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.75; 100 for \$25.00.

HARDY AGERATUM. You will be delighted with these fluffy blue flowers. When the Hardy variety is once planted it comes up year after year with no further attention. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.50; 100 for \$20.00.

PAINTED DASIES

75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00

BRILLIANT. Brilliant double crimson.

DORIS. Double old rose.

HUNTINGTON'S SCARLET. Scarlet single.

MIAMI QUEEN. Deep red double.

SYLVIA. Soft flesh pink double.

VICTORY. White double.

ROBINSON'S DARK CRIMSON. Single crimson.

LYCHNIS CHALCEDONICA.

3 ft. One of the most brilliant of our hardy plants, with vivid scarlet flower heads. Flowers all summer. 50c each; 3 for 1.00; 6 for \$1.75; 12 for \$3.00.

RUDBECKIA PURPUREA. Hardy, free flowering. Excellent for cut flowers, or in the garden. Bloom from July to October. Good for sun or partial shade. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.00; 100 for \$17.50.

Patented Everblooming

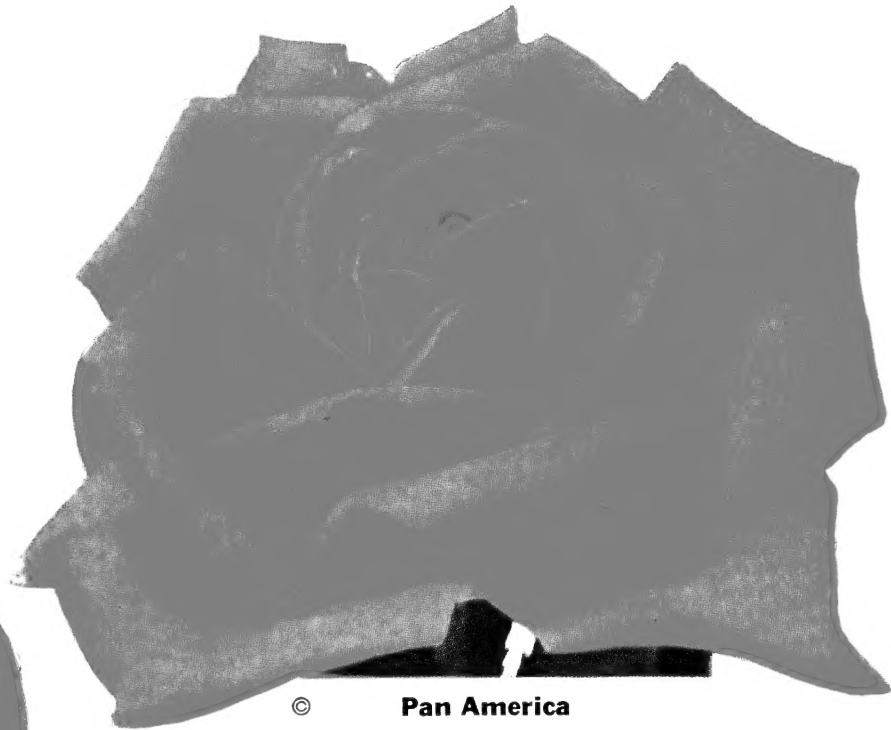

SIGNORA (Everblooming) Plant Patent No. 201. See color illustration at left, but the flower is much more handsome than the illustration. The first winner of the GOLD MEDAL awarded by the International Contest of new Roses at the Gardens of Cello Oppio. Also awarded a GOLD MEDAL in Portland, scoring highest rating of any Rose. This Rose is a real masterpiece in both plant and bloom. Long bud of burnt sienna, opening to a lighter shade, towards mandarine. Tall growing plant, with every bloom on a long stem. Very fragrant. **\$1.25 each; 3 for \$3.15.**

Pan America

PAN AMERICA (Everblooming) Plant Patent No. 437. A new very sweet smelling Rose, with a wealth of rich hues as shown by the above illustration. A persistent bloomer, hardy, vigorous, disease resistant, colors deeper in the fall. **\$1.50 each; 3 for \$3.75.**

ROME GLORY (Everblooming) Plant Patent No. 304.

This is undoubtedly the finest red rose introduced to date, being even finer and more brilliant in color than the illustration. The delightfully fragrant flowers are produced in great profusion all summer, on long stems that make them ideal for cutting.

Perfect in every stage, from the crimson red bud to the fully blown flowers. Long lasting, either on the bush or when cut. Robust and vigorous grower and one of the most winter hardy of all Hybrid Tea Roses. I do not hesitate to recommend Rome Glory as the one red rose that should be in every garden. **\$1.50 each; 3 for \$3.75.**

SPUN GOLD (Everblooming) Plant Patent No. 495. A new rose in pure limpid gold, with delightful fragrance and almost thornless stems. A hardy continuous bloomer, a real acquisition to the rose family. **\$1.50 ea.; 3 for \$3.75.**

MATADOR (Everblooming) Plant Patent No. 170. Awarded a Silver Medal at Portland, 1936. This is one of the most remarkable deep dark red roses ever introduced. It is a brilliant crimson, with a rich velvety maroon sheen. The flower is very large and perfect in form and brimful of attar of Rose. It is a sturdy grower, a free bloomer, and equally fine as a bedding variety or as a cut flower. The petals are of heavy kid-like substance, but with a velvety sheen, giving an unusual richness. **\$1.00 each; 3 for \$2.50.**

ARCTIC-HARDY EVERBLOOMING

I am presenting here a group of new, little known, Arctic-Hardy Roses that are the most persistent and profuse bloomers of all roses from summer until fall. They are especially bred for mass planting and are particularly recommended for their permanence, hardiness, profusion of bloom and ease of culture. For continuous color mass in the garden, or for hedges, or foundation planting, they are unsurpassed. They are hardy anywhere and are therefore especially recommended for colder climates, or locations where the winters are very severe.

GLOIRE DU MIDI (Everblooming) Plant Patent No. 270. A delightful variety in an unusual brilliant orange scarlet tone, the plant being completely covered with flowers. One spray makes a bouquet. A fine bedding variety. **85c each; 3 for \$2.15.**

ROCHESTER (Everblooming) Plant Patent No. 131. No bush ever produced more blooms per plant than Rochester. The flowers are fully double, in a most attractive two-tone effect, pink and buff, deeper at the centre, having coppery tones at the base of the petals. **\$1.25 each; 3 for \$3.15.**

ANNE POULSEN (Everblooming) Plant Patent No. 182. By far the best red rose in this class and the largest of this type. Large semi-double flowers of intensely vivid scarlet-crimson in large fragrant sprays. **85c each; 3 for \$2.15.**

SMILES (Everblooming) Plant Patent No. 331. A bright salmon pink that is so cheerful that some one said "It looks up at you from its place in the garden and smiles." Delightfully fragrant and a continuous and profuse bloomer. **\$1.00 each; 3 for \$2.50.**

DONALD PRIOR (Everblooming) Plant Patent No. 377. New. This is my own personal favorite of this entire group. It is never without its brilliant vivid velvety red flowers all summer long and it is certainly a great acquisition to any garden. In addition to its other good qualities it has a rich Damask fragrance. **\$1.00 each; 3 for \$2.50.**

FLORIBUNDA ROSES

SNOWBANK (Everblooming) Plant Patent No. 279. This rose is well named, as the flowers which open blush white soon turn to a pure dazzling snowy whiteness. They are of large size and borne in great profusion and the plants are always in bloom. **\$1.00 each; 3 for \$2.50.**

PERMANENT WAVE (Everblooming) Plant Patent No. 107. Similar in color and habit to Anne Poulsen, excepting that the petals are beautifully fluted and waved, the name being most appropriate. **\$1.00 each; 3 for \$2.50.**

BETTY PRIOR (Everblooming) Plant Patent No. 340. Continually stole the show at the New York World's Fair. Distinctive in appearance, attractive in color, which is a two tone pink, with deeper brilliant pink on the outside, a prodigious and continuous bloomer and attractive from every standpoint. **\$1.00 each; 3 for \$2.50.**

WORLD'S FAIR (Everblooming) Plant Patent No. 362. THE THEME FLOWER OF THE NEW YORK WORLD'S FAIR ROSE GARDEN, where their great beauty and dazzling velvety brilliance lasted throughout the entire Worlds' Fair season. The plants are literally covered with deep rich red roses from June until frost, the flowers being immensely more handsome than shown by the illustration. **\$1.00 each; 3 fo \$2.50.**

EVERBLOOMING CLIMBING TALISMAN ROSE

CLIMBING ETOILE DE HOLLANDE (Ever-blooming.) The illustration below gives some idea of the great beauty of this handsome rose, but its richness cannot be portrayed on paper. It is darker than the Red Radiance rose, which it somewhat resembles, the depth of color giving it added richness. It is also exquisitely fragrant. **\$1.00 ea.; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

**Etoile de
Hollande**

EVERBLOOMING CLIMBING TALISMAN. See illustration at left. No rose has ever approached the popularity of the Talisman Rose as a cut flower. Florists have sold more of them than of any rose grown. Now we have this delightful rose in everblooming climbing form. The flowers are of huge size and the illustration at the left gives but a faint idea of the great beauty and brilliance of this fine rose. The large double flowers are identical in form and color with the bush Talisman, but even larger and more handsome and produced in greater profusion. It is perfectly hardy where other roses are hardy and is a robust grower and profuse bloomer, continuing in flower until killed by frost. Extra strong, number one field grown two year old plants. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

**Grace Wayman

Climbing Rose.**
Illustration very
greatly reduced.

GRACE WAYMAN ROSE

The World's Finest Climbing Rose

GRACE WAYMAN ROSE. The World's Finest Climbing Rose. The illustration of the Grace Wayman Rose above does not begin to do it justice, as it is much more handsome. In fact everyone who has seen the Grace Wayman Rose in bloom has pronounced it the finest climbing rose they have ever seen. Comparing it with other pink climbers it is a better color, better form, larger, more double, of heavier substance and a more profuse bloomer. In color it is a luscious pink, a flower of unsurpassed form and mammoth size, many times the size of the illustration. And such profusion of bloom. One wonders how any plant can produce so many gorgeous blooms. But the big surprise is that in addition to its huge crop of flowers in June and an occasional flower during the summer, it will produce the largest crop of any climber in September, and until killed by severe frost. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

LISTED ON THIS PAGE \$9.75
VALUE \$5.00 FOR

GOLDEN GLOW CLIMBER (Plant Patent No. 263). A sensational pure deep spectrum yellow climber of Hybrid Tea type, with such intense freedom of bloom that the foliage is literally hidden by the flowers. It is an improvement over Golden Climber in profusion of bloom and intensity of color. Perfect double flowers up to 5 inches. Superb as cut flowers and borne in clusters up to 15 or more to a cluster, one cluster often making a huge bouquet. Very fragrant, hardy, and disease resistant. Number one, strong two year old "Cream Quality" field grown plants. **\$1.50 each; 3 for \$3.75.**

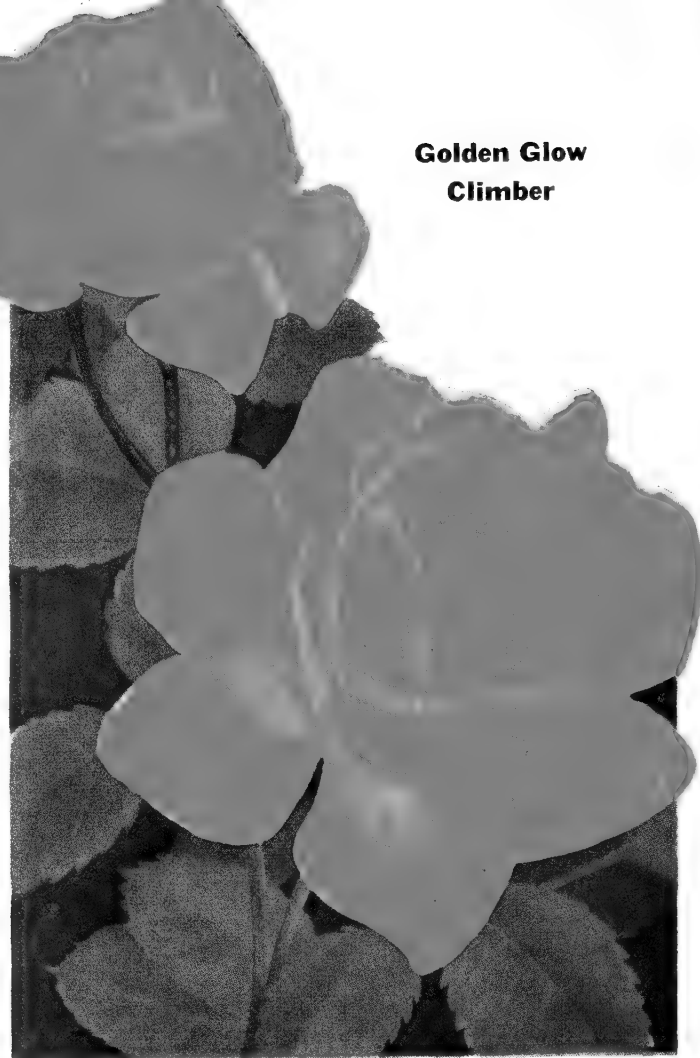

Elegance Climbing Rose

ELEGANCE CLIMBING ROSE. This new climbing rose, with its sparkling brilliance, is the last word in climbers. It is the result of 35 years of cross-breeding and it is one of the greatest climbers introduced to date. The illustration is made from an actual photograph, but is greatly reduced, because if it were produced in actual size it would fill the width of this page, for the flowers are up to 6½ inches across. It is the first of the climbers to flower, and continues blooming over a long period. It is a prodigious bloomer. The flowers are very double and of perfect Hybrid Tea Form, with 65 petals beautifully recurved; exquisite China Tea Fragrance. Yellow centre, blending to cream colored outer petals and eventually becoming pure ivory. Stiff strong flower stems, up to four feet, with one to 20 huge flowers to a stem. New type of feathered shiny foliage. Disease resistant, sub-zero hardy. Extra strong, two year old field grown plants. **\$1.50 each; 3 for \$3.75.**

COPPER GLOW SUB-ZERO HARDY CLIMBING ROSE. An absolutely new deep coppery orange, being the latest color sensation in roses. In addition to its unusual color and all other good qualities, it also has a delightful spicy fragrance. **\$1.50 each; 3 for \$3.75.**

ORANGE EVERGLOW. A sensational new Sub-Zero Hardy Climbing Rose in the size, shape, and color of Copper Glow, but Everblooming. Now offered for the first time. **\$2.50 each.**

BLAZE CLIMBING ROSE (Plant Patent No. 10). See illustration at right. Can you imagine anything more attractive than this "Blaze of Glory?" It is a sport of Paul's Scarlet Climber, with all its beauty, hardiness, vigor, and profusion of bloom, but with a tendency to produce two or more crops a year in some localities when fully established. One of the most showy of all climbers. ~~PRICE \$1.00 EACH; 3 FOR \$2.50~~ **\$1.25 each; 3 for \$3.15.**

© **Blaze Climbing Rose**

©1933 **Golden Climber—Winner of Two Gold Medals**

GOLDEN CLIMBER (Mrs. Arthur Curtis James), Plant Patent No. 28. Winner of the Gold Medal awarded by the Massachusetts Horticultural Society. It also had the great distinction of being the winner of the American Rose Society's Medal for the best rose of 1933. The illustration gives but a very faint idea of the perfection of form and great beauty of this magnificent rose, for it is a perfectly gorgeous flower of Hybrid Tea type, four to five inches in diameter, perfectly double and of fine form. It is a pure deep yellow climber, holding its color until the last petals fall. The flowers are usually produced one to an 18 inch stem, making them ideal for cutting. It has hardy, glossy foliage and ornamental red thorns on rich green wood. The flowers are exquisitely fragrant. The plant is a rugged grower and is hardy in severe sub-zero weather. Should be planted in full sun for best results. ~~PRICE \$1.00 EACH; 3 FOR \$2.50~~ **\$1.50 each; 3 for \$3.75.**

DR. J. H. NICHOLAS, EVERBLOOMING CLIMBING ROSE (Plant Patent No. 457). Sensational new Hybrid Tea type rose, with rich fragrance. Great double pink blooms 5 to 6 inches across produced in huge quantities all summer long from June to fall. Extremely hardy. **\$1.50 each; 3 for \$3.75.**

A NEW TYPE OF ROSE—TO REVOLUTIONIZE THE ROSE INDUSTRY

The four roses illustrated on this page are the direct result of 35 years of Rose Breeding for the purpose of creating certain definite improvements in the rose family. The result is an entirely new type of rose never before produced. The flowers are large and exquisitely fragrant and superior to anything in commerce in Hybrid Teas. The bushes produce many times the number of flowers produced by the most vigorous Hybrid Tea Rose, being continually loaded with flowers all summer and fall. But one of the greatest achievements in this group of roses is the life expectancy of 40 to 50 years. Instead of planting Hybrid Tea Roses to enjoy a few years of blossoms, you may now plant this new type of rose for a lifetime of flowers. The bushes are also robust growers and will make specimens 4 to 5 feet tall and 3 feet in diameter; or you may keep them trimmed back as desired. And one of the most amazing things about these Roses is their hardiness. I have grown them out of doors during the winter, where the thermometer went to 30 degrees below zero without protection and without injury.

Hardy Azalea - Flowered Chrysanthemums

These marvelous flowers are about the most profuse bloomers of all the floral kingdom. It is not at all unusual for one plant to produce 1,000 or more flowers in a single season. For garden plants or for growing in pots they are unexcelled.

It is an exceedingly rapid grower and plants ordered now will make huge plants by fall, loaded with flowers, after everything else in your garden has finished blooming.

Plant them in a prominent spot and they will not disappoint you.

Hardy in the most severe sub-zero weather.

SHIPPED FROM MY NURSERY
IN NEW JERSEY

Robert Wayman

Bayside, Long Island, New York

New Gold Medal Hybrid Delphiniums

The Delphiniums I am offering this season are truly marvelous. The individual florets are often 2 to 3 inches in diameter and the stalks, studded with flowers, are often 4 to 5 feet tall. The colors include the purest Delphinium-blues, deep purples, mauves, as well as pure snow-white. The plants themselves are extra strong, stocky flowering size two-year-old plants, with extra heavy root systems. Sent from my nursery in New Jersey. I would be justified in asking \$2.50 each for these fine plants, but while they last, I will sell them in assorted colors for:

**\$1.00 each; 3 for \$2.50; 6 for \$4.00;
12 for \$7.00; 100 for \$45.00**

Bleeding Heart (*Dicentra Spectabilis*)

This old favorite, with graceful racemes of flowers, is a delight in any garden and will make itself at home anywhere. When once established it is good for a lifetime with no care and becomes more handsome with each succeeding year. Extra strong clumps, sent from my nursery in New Jersey.

75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00

Gaillardia Grandiflora

You will never be without cut flowers if you grow a few Gaillardias, as they produce their attractive yellow and red flowers in abundance all summer and fall. Strong plants sent from my nursery in New Jersey.

**50c each; 3 for \$1.25; 6 for \$2.25;
12 for \$4.00**

Successive Blooming Miniature Iris Gems

A succession of low growing Miniature Beauties for planting on the edge of a bed, or for bordering a walk, or for planting in the rock garden, or in front of taller varieties. They are gems of beauty wherever you plant them. They all blossom very early in the spring ahead of other Iris, in April and early May on Long Island and a month earlier in the South. Some of them flower again in the fall and others occasionally throughout the summer. The flowers are showy and freely produced on stalks 6 to 12 inches tall. This collection contains a fine color range. See illustration of a few colors at left. Sent from my Iris Ranch at Grandview, Wash.

Asparagus should be grown in every home garden

BECAUSE—It is much cheaper to grow Asparagus than to buy it—in fact, it costs you practically nothing after the first investment. The cost of an Asparagus plant is ridiculously small. The returns that it will bring in pleasure and profit are great. There is nothing more delicious than Asparagus freshly cut from your own home garden. You will never know what Asparagus really tastes like until you grow your own. To get the full benefit of the delicious flavor of Asparagus, it should be cooked as soon as it is cut. This cannot be done when it is bought in the store because, no matter how nice it looks, Asparagus loses its flavor very rapidly after being cut.

Asparagus is one of the first garden vegetables available every Spring, therefore it is doubly appreciated. As the young sprouts appear, you just cut them off with a knife and cook them. It's as simple as that—less trouble than going to the store and heaps less expensive.

You may have fresh Asparagus for your table every day for 8 to 10 weeks each year for years and years from one planting; hundreds of dollars saving in the family budget and hundreds of delicious meals. It is easy to grow and requires little care. When once planted, it should last 20 years; therefore, it is a sound, **long term investment.**

CAN YOUR OWN

Why not make your planting of Asparagus Extensive enough to allow for canning, for use during the balance of the year?

Asparagus is the easiest thing in the world to can. There is just nothing to it; but you can use only strictly fresh Asparagus for that purpose. Therefore, you must grow your own if you are going to "Can your own" and after all since it is so easy, why pay a profit to the grower, the canner, the jobber, the retailer, and other middlemen, to say nothing of labor costs in all these operations. **Why not** be thrifty as well as prudent. There are many ways in which one may cut the cost of living, save the difference, and provide a nest egg for the future, and growing your own is one of them.

And talking about a nest egg, your neighborhood grocer will be glad if you will grow an extra supply and sell him that luscious, fresh cut asparagus regularly.

ORNAMENTAL FOLIAGE

The foliage of Asparagus is highly ornamental. Some species are grown by florists for use in bouquets. The plants have an airy, feathery, fern-like effect in the garden, covered by bright red berries. Planted in a row along a fence, or as a background to shrubbery or other plantings, it is, therefore, most ornamental.

MAKE THE PLANTING A GENEROUS ONE
25 to 50 plants will give an occasional treat for the family.

75 to 100 plants will provide an abundance of Asparagus for a family of 4 or 5.

125 to 200 plants will provide enough for canning. 300 to 400 plants, will give some for sale and provide a small income.

WHERE ASPARAGUS CAN BE GROWN

Asparagus is grown successfully from California to Canada. Sandy soil, clay soil, muck soil (or what have you), even soil that has a considerable salt content, such as sea-shore soil, are all suitable for growing Asparagus.

DISTANCE APART AND DEPTH—Set the plants 18 inches apart and 8 inches deep (in heavy clay soil 4 to 6 inches deep) with the ground spaded under the roots so that they will rest on loose soil. Plant with the crown pointing up and the roots spread out like the spokes of a wheel. Cover with 2 inches of soil and when the sprouts are 2 or 3 inches tall add more soil and continue this procedure as the plants grow until the bed is level.

FERTILIZER—is entirely unnecessary in the ordinary rich soil of the average garden.

TIME TO PLANT—The best time to plant is in the spring, as early as possible. Place your order **at once** and give me ample time to handle the order.

VARIETY TO PLANT—"Martha Washington" is the best variety to date. It was developed by cross-breeding for vigor, size, flavor, quality of spears, freedom from disease, etc. It is the kind that produces those large luscious stalks as illustrated at the left, and is the only kind I handle.
